WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/KR2004/001678

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

. Statement			
Novelty (N)	Claims	1 -16	YES
	Claims	NONE	ИО
Inventive step (IS)	Claims	1 - 16	YES
	Claims	NONE	NO
Industrial applicability (IA)	Claims	1 - 16	YES
	Claims	NONE	NO

2. Citations and explanations:

The present invention discloses a method for initiating uplink signaling proactively by the multimedia multicast/broadcast service(MBMS) user equipment(UE), comprising steps of: the UE moving to a new cell; listening to information on a MBMS control channel; initiating an uplink signaling according to information on the MBMS control channel; sending a response message to the UE by a Radio Network Controller(RNC), or if no UE moving to the new cell, initiating the uplink signaling proactively by the UE if the information received form th MBMS control channel includes an indication for UE counting.

The prior art neither teach nor fairly suggest the method of the present invention. Therefore, the subject matter of Claims 1-16 is considered to have novelty, an inventive step and industrial applicability.
